

The reason this PDF was created is to allow players of the Gears of War Board Game an opportunity to expand their gaming experience and add new missions since the original Mission Pack 1 is no longer in print.

This PDF contains:

- 4 Scorchers Special Weapon Cards
- 2 Rules/Mission Clarification cards
- 3 Mission - Showdown cards
- 4 Mission - Search for the Stranded cards
- 6 Enemy cards (General RAAM has side A and B)
- 19 AI Cards

NOTE:

The following pages are meant to be printed out then scored down the vertical centre line. Fold the page over on the score and glue together, then cut out the double sided cards. Use photo paper if possible.

Mission Specifics

Search for the Stranded

Map Size: Medium

The mission sends the COGS to rescue an isolated Stranded - a surviving scavenger - and recover a cache of ammo and supplies he is guarding.

Rule Clarifications

The Stranded: The Stranded is treated like a COG figure only for Locust activations. When resolving Locust AI cards, the Stranded may be targeted and attacked by Locusts as if it were a COG figure. However, the Stranded cannot be moved into cover or affected by COG attacks.

Ammo Tokens: Some card effects instruct players to place ammo tokens on the map. These tokens may not be picked up or placed on Weapon cards.

NOTE: The stranded is just a target for the locusts, it doesn't attack or activate. As the rules state it is considered a COG for Locust activation only, the rest of the time it is not considered a COG.

The Showdown

(continued)

Feral Berserker: If unwounded, the Feral Berserker may only be dealt wounds by the Scorcher or Bolo Grenades. Once wounded, any weapon type can be used to wound it.

Resetting the AI Deck: Once Stage 1 has been completed, the Locust AI deck is reset - all Butcher AI cards are removed from the Locust AI deck and added to the discard pile, and General RAAM's AI cards are added. Then, the Locust AI deck and discard pile are shuffled together to create a new Locust AI deck.

General RAAM: General RAAM's Enemy card has two unique sides. When General RAAM enters play, Side A of his Enemy card is placed faceup. Certain game effects will force players to flip this card over. Whichever side is currently faceup displays the current stats and abilities for General RAAM. Players always ignore the face-down side of this Enemy card.

New Card Clarifications

Scorcher Special Weapon Cards
These new Special Weapon cards are added to the existing deck of Special Weapon cards

General RAAM Enemy Card
The general RAAM Enemy card has two unique sides (Side A and Side B). See Rules card #6

Feral Berserker Enemy Card
The Feral Berserker's Omen ability will only trigger if the Feral Berserker is heavily wounded (the 3 health value faceup)

Grenadier and Flame Grenadier Enemy Cards

When a COG picks up a dropped weapon marker corresponding to one of these enemies, instead of gaining a weapon or ammo corresponding to the printed weapon, he gains the weapon, ammo, or grenades listed on the appropriate Enemy card.

The Showdown

Map Size: Medium

This mission pits the COGS against two very dangerous Locusts. First they must overcome a savage Berserker, and then they must face off and eradicate General RAAM himself!

Rule Clarifications

Setup: In addition to their normal starting Weapons, Grenades, and Ammo, each player also receives a Scorcher Special Weapon card with no ammo tokens on it.

Spawning Locust C: During setup, assume there are no Locust "C" figures for spawning. Since there is only one Feral Berserker figure and players only use one Boomer figure for General RAAM, Locust "C" figures cannot spawn during this mission. If a Location or AI card would spawn a Locust "C", instead spawn one Locust "B". If all Locust "B" figures are in play, spawn one Locust "A".

THE SHOWDOWN MISSION SETUP

SPECIAL RULES:

When setting up place the feral Berserker on the exit of the map. Each player receives a Scorcher Special Weapons card with no tokens for it.

FLIP WHEN:

Level 2 has been explored.

THE SHOWDOWN STAGE 1

Update the cards in the deck and the enemy AI as follows:
A: Grenadier, B: Palace Guard, C: General Raam

Carefully remove all the AI Butcher cards from AI deck and from the discard pile. Then, shuffle the discard pile into the AI deck. Place the figure of General RAAM (use a boomer figure) on the EXIT of the map.

Spawn 1 Locust type A for each player on every emergence hole on the map.

Then Proceed to the next stage

THE SHOWDOWN STAGE 2

SPECIAL RULES:

Boomers cannot be spawned

FLIP WHEN:
