

MAP TILES: DUNGEON GRAB BAG #3

By T. Jordan Peacock

This document contains a number of "floor tiles" in a basic, textured form - some with grids, and some without. Most of this set follow a "fantasy steampunk" theme. No walls, no obstacles - just floor textures that you can print onto cardstock, and cut out into passages and corridors of whatever dimensions you wish, to spell out your dungeon layout. They're made from assorted photos I've taken, as well as textures and effects from Adobe Photoshop and Painter Classic.
